NOTES

* Audio sequence usually is coming from Keyboards mixer with no extra channel required.

** In case guitarist brings his IEM Wireless system with personal mixer/splitter, NO Electric Guitar and Guitarist's voice are required in AUX2 due he already has a splitted copy.

USEFUL

Band is equipped with app for **Midas M32**, **Behringer X32** and **XAIR** for **personal monitor mixing**.

A wireless connection with Mixer will be welcome.
